Droom E-commerce Services

7 Reasons to Sell on Droom

Droom is a completely performance based marketplace. There is no charges for creating a listing and seller can upload unlimited listings on our online platform. At Droom you only pay when you sell.

How Droom Works for Sellers

Selling Service fee is a service fee that sellers pay only after transaction is complete. Droom Selling Service Fee starts at 1.5% (depending upon the category) on successful sale of a vehicle and starts 12% for automobile services, plus 18% GST (Goods and Services Tax). A Pro-Seller is liable to pay this fee only after completion of the transaction.

Token Amount is the commitment fee that is 2% - 3% of the final selling price paid by a buyer on Droom's online platform. The buyer pays the remaining 98% - 97% directly to a seller during the transaction closure. Token Amount is the money buyer pays via Droom to commit for a transaction that is adjusted in selling price during transaction closure. It is fully refundable and covered by buyer protection if the transaction does not complete.
