FAQs

How does it work?

Once coated on a vehicle surface, it works as an antimicrobial agent giving 99.99% germ kill protection & inhibits microbial growth. It works as sanitization coating on the surface of your vehicle & can be effective up to 3 months*.

Why this will work?

The technology used for Germ shield has been proven effective against SARS and other droplet-based viruses & being antimicrobial in nature it inhibits the growth of microbials providing effective sanitization for your vehicle.

Why should I go for this?

It inhibits the growth of microbials on your vehicle surface to protect your vehicle surfaces from viruses. Provides you with 99.99% germ kill protection. It sanitizes your vehicle to make it virus proof using a globally proven technology which lasts up to 90 days*.

How much it takes for the treatment?

For bikes & scooters the treatment starts from Rs. 499 & goes up to Rs. 899 for Super Bikes. For four Wheelers the treatment starts from Rs 999 and goes up to Rs. 1,799 depending upon the body type of the vehicle. It only takes around 10-15 minutes for treatment followed by 15 minutes of waiting time for it to dry and bond to the surface. We are also providing special discounts exclusively for phone orders.

Will someone come to me or will I have to go somewhere for the treatment?

As of now, you need to contact the seller to book your appointment and visit our authorized centers** to get the treatment done, the service can be availed all 7 days between 9 AM to 6 PM. We are actively working to provide you with the door-step delivery of the service at the earliest through combination of new workshops and leveraging current network of Droom's ECO Certification service.

How do I know it is effective?

It is an outstanding disinfectant and in simple words it forms an optically clear & protective shield which has been proven to be effective against SARS and other droplet-based viruses. We also provide a testing service using ATP swab technique which is a globally used tool to measure the contamination level on a surface.

Are there any side effects?

There are no know side effects of the treatment.

Will my car have any damage or spots?

It will not leave any spots or damage the surface. The coating only forms an optically clear & protective shield which in turn hinders the microbial growth on the coated surface. In some cases, it also helps to reduce the stains.

Will I get any certificate?

Droom will provide you with certification cards of the treatment upon completion which will be integrated with our online platforms to educate you further to stay safe. It will be provided to you over your registered email Id.

Where is the location where I can have this done?

Currently it is only available in our authorized centers** in Delhi NCR where you can get this treatment done. we are actively working to provide you with the door-step delivery of the service at the earliest through combination of new workshops and leveraging current network of Droom's ECO Certification service. Stay tuned for the updates.

Can the vehicle be used immediately after the process is over?

It only takes around 10-15 minutes for treatment followed by 15 minutes of waiting time for it to dry and bond to the surface. The vehicle can be used immediately after the dry & bonding period.

Does the process leave any smell?

It is a completely odorless coating and does not leave any kind of spots, also it helps to prevent odor in the future as well.

*The efficacy of the treatment is valid for 3 months, i.e. RLU (relative light units) up to 100 can be maintained for 3 months **Workshop locations: MedicOpedia, Flatted Factory Complex, F-252, Okhla Phase III, Okhla Industrial Area, New Delhi, Delhi 110020 and Droom Technology Private Limited Ground Floor, 77 A, IFFCO Road, Sector 18, Gurugram, Haryana 122015

How I can place the order?

You can place your order on droom.in/health
